

FLEISCHHACKER

## IT Consultant for Benelux Home Office

We are looking for a Software or Healthcare IT Consultant to support our customers in the Netherlands, Belgium and Luxemburg.

Fleischhacker is highly specialized and innovative in developing software for cardiac applications. Our software MediConnect® is a fully integrated solution that follows a holistic approach for the healthcare provision. It is designed to manage clinical processes and can be used for the preparation, presentation, communication and archiving of patient and study data. In Germany, MediConnect® is the leading solution for managing processes in Cardiology and we would like to achieve a similar market position in the Netherlands, based on multiple Dutch customers deploying MediConnect®.

### Our benefits:

- You will work in a dynamic, young team
- Home office
- Flexible working hours based on 40hrs/week
- Attractive compensation package
- Social benefits such as Christmas and vacation pay
- Company pension scheme
- Continuous learning and education
- Part time studies possible
- Thorough on-the-job training, further qualification and ongoing support from your colleagues in Germany and Singapore.

### Your tasks:

- Engaging with customers to analyse processes, create solutions and train administrative, clinical and technical staff
- Installation of our software within complex IT systems of university hospitals
- Establishing connectivity with Hospital Information Systems (HL7), medical imaging modalities (DICOM), remote monitoring systems and diagnostic equipment
- Customisation of the solution based on in depth understanding of clinical and administrative processes in Cardiology
- Testing and maintaining the installed solutions

### Your Profile should therefore be:

- BA/MA in computer science, IT or similar qualification.
- Excellent organizational skills and experiences in project management are appreciated.
- Autonomy, ability to deliver on your own, manage customers expectation with a problem solving and excellence mind-set.
- Experience in clinical environment is appreciated.
- Dutch, English, (required), German (desirable)

We are looking very much forward to your application. Please, send your CV by email to [karriere@fleischhacker.biz](mailto:karriere@fleischhacker.biz).
