STAVANGER E4000

Order is half the battle

The shape-retaining, stable STAVANGER E4000 emergency bag is a real all-rounder for accommodating many materials. Thanks to the many different, integrated compartments, such as the outer side pockets and the fold-out container modules inside, they can easily keep things tidy. The easy and convenient interior partitions offer enough storage space for the important utensils needed in an emergency. And for those who like it handier: Our container modules M, MM and L also fit. The 3M™ Scotchlite reflective strips on the sides ensure maximum safety at and on the way to the accident site.
