The Master of Disguise – TWISTER Brings Light to Everyday Lab Life

Gültig bis 31.03.2023

Newly Designed and Already Award-Winning

Slim, lightweight, glass-fronted and operated via a touch display: TWISTER is a completely reimagined and redesigned professional mixer. And even before it was launched, it had already won the Red Dot Award in the Product Design category.

Touch to Operate

A high quality design doesn't only consider aesthetics, but takes into account intuitive user operation internally and externally. In both respects, TWISTER is redefining laboratory work. Internally, it features a user-friendly touch screen interface. Operating by touch will be one of your new intuitive experiences with the innovative TWISTER. Externally, TWISTER is completely versatile: you can use it as a magnetic stirrer today and as a shaker tomorrow and, always benefit from its small laboratory footprint.

The new TWISTER from IKA – powerful, innovative, versatile, and adaptable for the first time

In its basic configuration, the TWISTER is a high-performance single-position magnetic stirrer for mixing up to 5 litres at a maximum of 3,000 revolutions per minute and a viscosity of up to 500 mPas.

By connecting multiple units to form a cluster with up to 30 expansion units, the TWISTER can be expanded into a multi-station magnetic stirrer or shaker. The stirring stations can be controlled either separately from one another or simultaneously (leader-follower principle).

Be State of the Art

THE PERFECT ACCESSORY FOR THE TWISTER

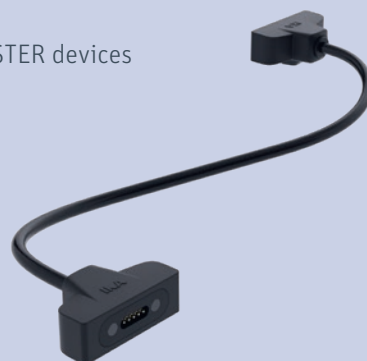

TWISTER extension unit

without power supply or accessories
Item no.: 7766268

Extension cable

for connecting TWISTER devices
Item no.: 7766279

Depending on the number of devices, you may need to use a different mains adaptor, as the one supplied is designed to power up to two devices.

TWISTER-SET 1

Consists of TWISTER S099,
magnetic rods, and a power cable
Item no.: 7766262

TWISTER-SET 2

Comprising 2x TWISTER S099, 2x magnetic rods
IKAFLON® 25 and power cable extension
Item no.: 7766263

TWISTER-SET 3

Comprising 3x TWISTER S099, 3x magnetic rods
IKAFLON® 25 and power cable
Item no.: 7766264

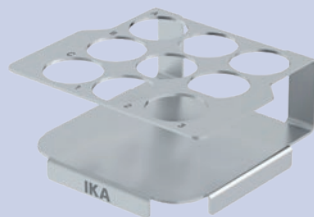

TWISTER SET-4

Comprising 4x TWISTER S099, 4x magnetic rods
IKAFLON® 25 and power cable
Item no.: 7766265

Vessel holder

for 9 sample vessels with
a diameter of 23 mm
Item no.: 7766275

Shaking attachment

transforms the TWISTER into a
fully-fledged vortex and
circular shaker
Item no.: 7766270

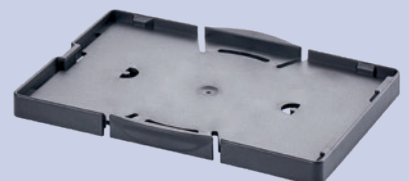

Mixing attachment

for upgrading the TWISTER
to 9 mixing stations
Item no.: 7766269

Microtitre insert

for a microtitre plate
Item no.: 7095428
